 6. The successful Bidder shall apply to any tribunal for the appointment of a trustee or receiver of any part of the assets of the successful Bidder, or commence any proceedings relating to the successful Bidder under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution or other liquidation law of any jurisdiction, or any such application shall be filed, or any such proceedings shall be commenced, against the successful Bidder, and the successful Bidder indicates its approval, consent or acquiescence, or an order shall be entered appointing such trustee or receiver or adjudicating the successful Bidder bankrupt or insolvent, or approving the petition in any such proceeding, and such order remains in effect for sixty (60) days.
- B. In the event the Village terminates this contract in whole or in part as provided in Paragraph (A) of this clause, the Village may procure, upon such terms in such manner as the Village Administrator may deem appropriate, supplies or services similar to those so terminated, and the successful Bidder shall be liable to the Village for any excess costs for such similar supplies or service, provided that the successful Bidder shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

21. EQUAL EMPLOYMENT OPPORTUNITY

Each contracting agency shall ensure every contract to which it is a party shall contain the following clause.

During the performance of this contract, the contractor agrees as follows:

1. That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, physical or mental disability unrelated to ability, pregnancy, military status, or an unfavorable discharge from the military service; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.
2. That, if it hires additional employees in order to perform this contract or any portion thereof, it will determine the availability (in accordance with the department's rules and regulations) of minorities and women in the area(s) from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.
3. That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, sexual orientation, marital status, order of protection status, national origin or ancestry, citizenship status, age, physical or mental disability unrelated to ability, pregnancy, military status, or an unfavorable discharge from military service.
4. That it will send to each labor organization or representative of workers with which it has or is bound by a collective bargaining or other agreement or understanding, a notice advising such labor organization or

representative of the contractor's obligations under the Illinois Human Rights Act and the Department's Rules and Regulations.

If any such labor organization or representative fails or refuses to cooperate with the contractor in its efforts to comply with such act and rules and regulations, the contractor will promptly so notify the department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations thereunder.

5. That it will submit reports as required by the department's rules and regulations, furnish all relevant information as may from time to time be requested by the department or the contracting agency, and in all respects comply with the Illinois Human Rights Act and the Department's rules and regulations.

6. That it will permit access to all relevant books, records, accounts, and work sites by personnel of the contracting agency and the department for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and the Department's rules and regulations.

7. That it will include verbatim or by reference the provisions of this clause in every subcontract it awards under which any portion of the contract obligations are undertaken or assumed, so that such provisions will be binding upon such subcontractor. In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by such subcontractors; and further it will promptly notify the contracting agency and the department in the event any subcontractor fails or refuses to comply therewith. In addition, the contractor will not utilize any subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

SUBCONTRACTS

Each public subcontractor shall in turn include the equal employment opportunity clause set forth within these rules and regulations in each of its subcontracts under which any portion of the contract obligations are undertaken or assumed, said inclusion to be either verbatim or by reference so that the provisions of the clause will be binding upon such subcontractors.

CONTRACTS OR SUBCONTRACTS WITH RELIGIOUS ENTITIES

The requirements of the equal employment clause set forth above with respect to nondiscrimination because of religion shall not apply to a religious corporation, association, educational institution or society with respect to the employment of individuals of a particular religion for the carrying on by such corporation, association, educational institution or society of its activities.

VILLAGE OF WOODRIDGE, BID 2019-01
TURF MAINTENANCE SERVICES SPECIFICATIONS

The undersigned ("Contractor") agrees to furnish to the Village of Woodridge, an Illinois municipal corporation, hereinafter referred to as the "Village", **TURF MAINTENANCE SERVICES** conforming to the terms and conditions set forth herein.

I. GENERAL TERMS AND CONDITIONS

A. EXAMINATION OF SITE

Bidders shall inform themselves of all the conditions under which the work is to be performed concerning the site of the work, the obstacles which may be encountered, and all other relevant matters concerning the work to be performed under this contract.

The Contractor to whom a contract is awarded will not be allowed any extra compensation by reason of any such matters of things concerning which the Contractor did not inform himself prior to bidding. The successful Contractor must employ, so far as reasonably possible as determined by the Village, such methods and means in the carrying out of his work as will not cause any interruption or interference with any other contractor.

B. MEETING BEFORE WORK BEGINS

It is mandatory that the Contractor meet with the Director of Public Works or his designee(s) prior to the start of work in order to review the contract specifications, designate the appropriate project contacts, and the manner in which work will be proceeding, among other items.

C. DAMAGE TO PUBLIC OR PRIVATE PROPERTY

Any damage of public or private property caused by the Contractor's operations shall be resolved with the property owner within ten (10) days after damage occurs to the satisfaction of the Village. The Contractor shall inform the Village of any damage caused by the Contractor's operation on the day such damage occurs. Should the damage not be rectified within the time frame agreed upon or to the satisfaction of the Village, the Village reserves the right to repair or replace that which was damaged or assess the Contractor such cost as may be reasonable and related to damaged caused by the Contractor, and deduct these costs from any payment due the Contractor.

D. SUBLETTING CONTRACT

It is mutually understood and agreed that the Contractor shall not assign, transfer, convey, sublet, or otherwise dispose of this contract or his right, title, or interest therein, or his power to execute such contract, to any other person, firm, or corporation, without the previous written consent of an authorized representative of the Village of Woodridge; but in no case shall consent relieve the Contractor from his obligations or change the terms of the contract.

E. DEFAULT

The contract may be canceled or annulled by the Village in whole or in part by written notice of default to the Contractor upon nonperformance or violation of contract terms. Failure of the Contractor to deliver services within the time stipulated, unless extended in writing by the Village of Woodridge, shall constitute contract default.

F. SAFETY

The Contractor shall insure that all its employees or agents shall abide by all safety rules or regulations set by the Village of Woodridge as well as by general regulations and standards of the industry and in accordance with all applicable federal, state, and local regulations.

G. WORKMANSHIP

Workmanship shall be of the highest caliber in every respect. Workers must take care to insure the least amount of disturbance to the sites, Village staff members, and the general public.

H. PENALTY FOR NON-COMPLETION

Time is of the essence to the contract. Should the Contractor fail to complete the work within the timelines stipulated in the contract or within such extended time as may have been allowed, the Contractor shall be liable and shall pay the Village two hundred fifty dollars (\$250.00) per calendar day not as a penalty but as liquidated damages, for each day of overrun in the contract time or such extended time as may have been allowed. The liquidated damages for failure to complete the contract on time are approximate, due to the impracticality of calculating and proving actual delay costs. This penalty established is to cover the cost of delay to account for administration, engineering, inspection, and supervision during periods of extended and delayed performance. The costs of delay represented by this schedule are understood to be a fair and reasonable estimate borne by the Village during extended and delayed performance by the Contractor of the work, remaining incidental work, correction of work improperly completed, or repair of work damaged as a result of the Contractor. The liquidated damage amount specified will accrue and be assessed until final completion of the total physical work of the contract even though the work may be substantially complete. The Village will deduct these liquidated damages from any monies due or to become due to the Contractor from the Village.

The other provisions of the Contract have been established to allow for the efficient completion of this project, without creating additional burden or hardship on the Village or additional administration and/or operating expenses for the Village. The failure to adhere to the specifications of the contract, including but not limited to the following examples, shall result in the assessment of liquidated damages of one hundred dollars (\$100.00) per incident per day. Some examples include:

- a) failing to complete work in a manner or sequence as required;
- b) damaging landscaping (i.e. debarking plants by running into them with equipment);
- c) failure of the contractor to be accessible to the Village or respond to requests to complete work; and
- d) failing to clean-up garbage or debris.

I. SUPERVISION AND TRAINING

Competent English speaking supervisory personnel shall be present at each facility on a regular basis. The Contractor shall properly schedule and train all of its personnel. It is required that the supervisor visit the facilities being cleaned on a weekly basis to be sure that it has been completed in a satisfactory manner. The Village reserves the right to have the contractor assign a new contact, supervisor, and/or staff, for the Village's account if the current representative(s) are deemed unacceptable.

J. WORKING HOURS

The Contractor shall work the same hours as the Public Works Department (7:00am to 3:30pm) unless other arrangements are agreed upon ahead of time. The Contractor must inform the Director of Public Works, or his designee, when the Contractor will be working outside of the normal working hours for Public Works.

K. TRESPASS ON LAND

The Contractor shall confine his operations and storage of materials and equipment to the job site public right-of-way or easements. The Contractor shall exercise extreme caution so as not to trespass upon property of third parties not involved in the contract. In the event that the Contractor is to enter upon the property of third parties in the execution of the work he shall obtain written permission prior to doing so and submit evidence of said written permission to the Village.

L. COSTS

The undersigned hereby affirms and states that the prices quoted herein constitute the total cost to the Village for all work involved in the respective items. This cost also includes all proposal preparation costs, insurance, royalties, transportation charges, use of all tools and equipment, superintendent, overhead expense, inspection costs, all profits and all other work services and conditions necessarily involved in the work to be done in accordance with the requirements of the contract documents considered severally and collectively.

M. TRAFFIC CONTROL

The Contractor shall provide adequate traffic control for work area protection in compliance with the Federal Highway Administration Manual on Uniform Traffic Control Devices for Streets and Highways, the State of Illinois Vehicle Code, the Illinois Department of Transportation Highway Standards, and the Illinois Department of Transportation Handbook of Traffic Engineering Practice for Small Cities.

N. PROTECTION OF EXISTING FACILITIES

Existing facilities, including grounds, structures, landscaping and so forth shall be protected by the vendor. Any damage to existing facilities shall be reported to the Village and shall be repaired promptly by the vendor when ordered to do so by the Village at no cost to the Village. All repairs of damage to existing facilities shall be made to the satisfaction of the Village. Failure to repair damage shall be just cause for withholding payment for work, which becomes due.

O. ACCESSIBILITY OF CONTRACTOR

Contractor shall supply cell phone numbers, daytime office numbers, fax numbers, and pager numbers of supervisors handling this contract. The Contractor shall return all calls or pages within one hour of the Village placing the call. On-site response time for complaints must be made within 24 hours of the initial call being made by the Village. The Contractor must assign an English speaking crew leader to monitor all work being performed within the Village. The Contractor shall update the Public Works Superintendent of Operations or his designee on work progress no less than once per week. Failure to comply with the accessibility requirements shall be deemed as substandard work and will be subject to the same penalties.

P. REFERENCES

A reference list (attached) must also be submitted with the bid documents. The references must be municipal accounts or accounts similar in size, but shall include at least one (1) municipal client at a minimum.

Q. BILLING & PAYMENT

Payment shall be made in seven (7) equal payments, once all work has been completed in a satisfactory manner and the specifications stated herein have been met, for the following months: April, May, June, July, August, September, October following receipt of an invoice from the Contractor for the month in question.

R. RENEWAL AND EXTENSION

This Contract shall be in full force and effect from the date of approval up to and including March 31, 2020. At the sole discretion of the Village this contract may be extended for three (3) additional one (1) year periods, treated individually, pursuant to the optional extensions included with the COMPANY'S proposal. The COMPANY shall request of the Village by means of written notification, 120 days prior to the contract expiration deadlines, regarding the Village's intention to extend beyond the initial agreement term.

II. SPECIFIC CONDITIONS FOR TURF MAINTENANCE

A. TRASH AND DEBRIS

The entire site will be inspected and cleared of all trash, debris, glass, rocks, etc. before mowing begins. Mowing over paper, cups, cans and other litter shall not be accepted. Should this occur the Contractor shall immediately pick-up and properly dispose of all debris.

- B. EQUIPMENT CONDITION**
All equipment will be kept in good, safe operating condition, including use of guards. All mowing equipment will have sharp blades so that the grass is cut properly. All equipment will be kept in such a condition so that the gas/oil is not leaking.
- C. FUEL/OILING**
Spilling gasoline and oil kills the grass. Mowers will not be fueled or oiled in grass areas. They should be moved to a paved area to perform this function. If any spill should occur the Contractor shall immediately commence the appropriate clean-up in conformance with any and all applicable regulations. The Contractor shall be responsible for all costs associated with such a clean-up and restoration and/or reimbursement for any damages that may occur.
- D. FINAL APPEARANCE**
Mowing patterns shall be such that the clippings and mulch are evenly distributed, not wind rowed into noticeable deposits. Grass clippings will not be allowed to accumulate on hard surface areas, sidewalks or roadways and must be removed by the Contractor in an appropriate manner. If wind rows are present, the clippings must be removed by raking and properly disposing of the material by the Contractor.
- E. ADDITIONS OR DELETIONS**
The Village reserves the right to increase or decrease quantities and number of mowings based on actual field conditions and requirements. The Contractor will be asked to provide a list of hourly manpower and equipment rates used to calculate the proposal prices for this section of the contract. These rates shall be used when the quantities of work must be increased or decreased for any reason such as adding sites, deleting sites, or failure of the Contractor to complete required work. Using these rates, the Village and the Contractor shall meet and shall mutually agree upon the dollar amounts to be added to or deleted from the contract.
- F. OPTIONAL WORK**
At the Village's option the Contractor may be asked to provide additional lawn mowing in the event that such services become necessary. The cost of such service will be provided on a square foot basis as stated on the proposal page.
- G. LOCATIONS**
Public Properties, Town Centre Campus, Medians and Parkways
This includes various locations within the Village of Woodridge of approximately one hundred seventy five (175) sites totaling approximately 84 acres. See "Attachment A" for a list of mowing locations.
- H. MAINTENANCE REQUIREMENTS:**
Lawn mowing equipment must be mulching type, and the die shoots must be blocked or, if not mulching, a bag must be used. All sites shall be mowed once a week. Mowing equipment shall be set at 2 ½" at all times. All garbage must be picked up and removed and properly disposed of by the Contractor prior to mowing so as to avoid catching the garbage in the mower. Any debris that is mowed over shall be immediately picked up and disposed of by the Contractor. Special care will be taken not to damage or upset the numerous planting beds within the turf areas. The Village of Woodridge Department of Public Works Superintendent of Operations, or his designee, shall have the right to inspect all equipment and height of cut immediately after mowing for compliance.
- The Town Centre is to receive a high level of attention. This location is the focal point for the community and requires a commitment to be meticulously maintained at all times throughout the entire period of the contract. Work demands in the public properties areas will not be reason to provide substandard work in this area, or vice versa.
